

SILVER WINNER

Cheryl  
Terry

## Cheryl Terry, Fairview Kitchen Designer in Seabrook, NH Winner Silver Prism Award Kitchen Remodel \$125,000-\$150,000

As part of a 10' x 19' addition, Cheryl designed this kitchen for an active family of tweens and teens. In order to accommodate sufficient workspace at the oven area Cheryl was able to obtain 2' of space from the adjoining laundry room. The other structural recommendation was the addition of 2 windows on the cooktop wall allowing more natural lighting into the room. The many textures in the room, from the natural stone wall at the cooktop, the Dekton Quartz Trillian countertops and the Aged Concrete Finish Cabinetry are calmed by the black accents of the floating shelves, the small island and various cabinets. Visual interest is also created with glass cabinets. Cheryl knew she succeeded in creating their dream kitchen when her client's husband said, "My wife loves the kitchen so much that she dances while cooking!"
